

# GO WILD™

Watch your customers GO WILD™ for our new super-chill paks!

### Preserves freshness and natural color

The GO WILD™ super-chill-pak technology preserves product freshness for optimal shelf life. It's also designed to reduce freezer burn and maintain the seafood's natural protein color.

### Reduces handling and shrink

GO WILD™ super-chill paks can be placed directly from the shipping carton into the fresh seafood retail case. Restocking on a just-in-time basis is easy – keeping shrinkage to a minimum.

SPECIES	ORIGIN	UPC CODE	CASE GTIN	PACKED	CASE DIMENSIONS	PALLET TI-HI	NET WGT.
