SUPER-CHILL PAKS

IDEAL FOR FRESH OR EVEN FROZEN SEAFOOD CASES

GO WILD™ Premium Seafood now includes two popular farm-raised species. The same premium quality as our wild-caught species, both are responsibly sourced from sustainable fisheries that follow best aquaculture practices, and are packed using our super-chill-pak technology.

Preserves freshness and natural color

The GO WILD™ super-chill-pak technology preserves product

freshness, delivering an extended shelf life of up to seven days when stored in the refrigerator at 38°F or below. It's also designed to reduce freezer burn and maintain the seafood's natural protein color.

Reduces shrink and in-store labor costs

Pre-weighed and UPC-coded, GO WILD™ super-chill paks can be placed directly from the shipping carton into the fresh or frozen seafood case. Restocking on a just-in-time basis is easy — keeping shrinkage to a minimum.

SPECIES	ORIGIN	UPC CODE	CASE GTIN	PACKED	CASE DIMENSIONS	PALLET Ti-Hi	NET WGT.
Atlantic Salmon	Chile	8-8269495121-5	00882694951215	12 x 10 oz.	14.19" x 9.44" x 8.19"	13 x 10	975 lbs.
Tilapia	Mexico/Honduras	8-8269495811-5	00882694958115	12 x 8 oz.	14.19" x 9.44" x 8.19"	13 x 10	780 lbs.
